Professional Summary

I'm a frontend developer passionate about creating clean, fast, and user-friendly websites. I specialize in writing accessible, responsive code with a focus on great user experience and performance. I'm always exploring new tools and technologies to improve my craft. I value collaboration, clear communication, and continuous learning. Open to frontend internships and entry-level developer roles.

Skills

Frontend

HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap

Version Control & Deployment

Git, GitHub, Firebase, Vercel, Netlify

Programming languages

Python, C++

Projects

Apr 2025 – Present

CaloriCurve

- A smart nutrition-tracking web app that helps users log meals, monitor calories and nutrients, set personal goals, and track progress. Built with HTML, CSS, and JavaScript, it also includes secure user authentication using Firebase.
- Tech used: HTML, CSS, JavaScript, Firebase

Jul 2024 – Feb 2025

Cryptocurrency Tracker

- A responsive web app built with React and Tailwind CSS that displays real-time cryptocurrency data using the CoinGecko API. Users can track prices, monitor market trends, and sign in securely with Firebase authentication. Designed to be fast, simple, and user-friendly.
- Tech used: React, Tailwind CSS, Firebase, CoinGecko API

Professional Experience

Jan 2025 – Mar 2025

Project Engineer (Academic Role)

- Built the frontend of a full-stack food delivery app using HTML, Tailwind CSS, and JavaScript to support a peer's academic project, focusing on responsive UI design and user experience.
- Improved UI and performance in 4+ peer projects by fixing bugs, resolving API issues, and applying Tailwind CSS for better design.

Education

Apr 2022 – Apr 2025

Bachelor of Science in Information Technology (B.Sc I.T)

University of Mumbai
